Psychiatry Residency Training Program
Resident Evaluation Form - Child & Adolescent Psychiatry

All residents should be evaluated at least once during each rotation by the resident’s supervisor for that rotation. Please evaluate this resident’s progress in achieving the following objectives for this rotation:

- **O** = Outstanding
- **A** = Above average
- **P** = Proficient/meets expectations
- **E** = Emerging
- **N** = Needs attention
- **NA** = Not applicable/unable to assess

### Patient Care

- Able to evaluate children of different ages and with a variety of psychiatric conditions, and their families.
- Makes appropriate Axis I DSM-IV diagnoses of children and adolescents.
- Gathers information from a variety of sources, including the child/adolescent, their family, their school, and relevant social or mental health agencies involved in their care.
- Develops and implements appropriate treatment plans, including psychopharmacologic treatment and individual and family psychotherapy.
- Understands indications for intervention in, and how to refer, children of the resident’s own adult patients.

### Knowledge

- Demonstrates adequate knowledge of child development and psychopathology.

### Practice-Based Learning and Improvement

- Locates and critically appraises scientific literature relevant to patient care; regularly uses information technology in the service of patient care.
- Participates in practice-based improvement activities (CQI).

### Interpersonal and Communication Skills

- Creates and sustains effective therapeutic relationships with patients and families; displays empathic listening skills.
- Works effectively with health care professionals (including those from other disciplines), colleagues, and staff to provide patient-focused care.

### Professionalism

- Demonstrates respect for others, compassion.
- Demonstrates integrity, accountability, responsible and ethical behavior.
- Demonstrates understanding of patients and their illnesses in a sociocultural context, including displaying sensitivity to patients’ culture, ethnicity, age, gender, socioeconomic status, sexual minority status, and/or disabilities.

### Systems-Based Practice

- Displays an understanding of the health care system and of the broader context of the patient’s care; effectively accesses and utilizes resources; practices cost effective care.
- Appropriately advocates for quality patient care; helps patients with system complexities.
Educational Attitude

---
